

Unit-II

Q.No	Question	BL	CO	PO
Section – A (Short)				
1	What is distributed computing?	1	CO2	PO 1
2	Define parallel computing.	1	CO2	PO 1
3	What is SISD architecture?	1	CO2	PO 1
4	What is SIMD?	1	CO2	PO 1
5	Define MIMD.	1	CO2	PO 1
6	What is inter-process communication?	1	CO2	PO1, PO2
7	Define RPC.	1	CO2	PO 1
8	What is SOA?	1	CO2	PO1, PO2
9	What are web services?	1	CO2	PO1, PO3
10	List elements of parallel computing.	1	CO2	PO 1
11	What is ubiquitous Internet?	1	CO2	PO 1

12	Mention any two technologies for distributed computing.	1	CO2	PO 1
13	What is virtualization?	1	CO2	PO 1
14	What is Hypervisor?	1	CO2	PO 1
15	Differentiate parallel and distributed computing.	4	CO2	PO1, PO2
Section – B (Long)				
1	Explain the concept of Ubiquitous Internet and its role in enabling cloud computing.	2	CO2	PO1, PO2
2	Discuss elements of parallel computing. Explain how parallelism is achieved at different levels (instruction level, data level, task level).	2	CO2	PO1, PO2
3	Describe Flynn's classification of computer architectures. Explain SISD, SIMD, MISD, and MIMD architectures with diagrams and examples.	2	CO2	PO1, PO2
4	Explain distributed computing model with neat diagram.	2	CO2	PO1, PO3
5	Explain Inter-process Communication (IPC) in distributed systems. Discuss various IPC mechanisms such as message passing, shared memory, pipes, and sockets.	2	CO2	PO1, PO2
6	Describe the RPC mechanism with a neat diagram. Explain the steps involved in executing a remote procedure call.	2	CO2	PO1, PO2
7	Describe the architecture of SOA with a diagram. Explain the roles of service provider, service consumer, and service registry.	2	CO2	PO1, PO2
8	What are Web services? Explain the web services architecture with SOAP, WSDL, and UDDI components.	2	CO2	PO1, PO3

9	Compare and contrast SOAP and REST web services.			
10	Discuss the role of virtualization in cloud enabling technologies.	2	CO2	PO1, PO4
11	Compare parallel and distributed computing.	4	CO2	PO1, PO2
12	Explain virtualization in detail. Discuss the types of virtualization (hardware, server, storage, network) and their benefits.	2	CO2	PO1, PO2
13	Describe the architecture of virtualization with hypervisor. Explain the difference between Type 1 and Type 2 hypervisors with examples.	2	CO2	PO1, PO2
